SEED — SEEDLINGS — TRANSPLANTS

SPECIES AND HYBRIDS—AZALEA, LEUCOTHOE, PIERIS, RHODODENDRON

Azalea mollis Azalea poukhanensis Azalea mucronulata Rhododendron Hybrids Leucothoe catesbaei

These are some of our started seedlings (ss). Picture was taken in August. Seedlings received earlier will be smaller. Smaller seedlings, however, generally transplant with a better percentage of survival. Rid yourself of fuss, risk and bother by buying our seedlings or transplants now.

s—SEED available in \$1.00 packets of from 300 to 500 seeds, sent postpaid.
ss—STARTED SEEDLINGS as pictured above available in flats holding at least 400 to 500 seedlings. Cultural suggestions are furnished. AVAILABLE ABOUT JUNE 1 & AFTER

st—TRANSPLANTED SEEDLINGS available in flats of 52 and 66 plants
little plants with well-developed root system in our special mixture of soil, sand, peat and Styrofoam. Strong, sturdy

QUANTITY DISCOUNTS: 10 flats or 20 half flats or combination—deduct 5%.
25 flats or 50 half flats or combination—deduct 10%.

PICKUP DISCOUNT: Pickup at the nursery entitles purchaser to a discount of 3%.

ITEMS BELOW: Started Seedlings (ss)—\$20.00 per flat, \$11.00 per half flat (*). Transplanted Seedlings (st)—\$9.10 per flat of 52 (17½¢), except \$11.55 per flat of 66 (17½¢) where noted (66).

- ss st Azalea Embley Hybrids, mixed colors
- ss, st Azalea Knap Hill Hybrids, mixed colors (66)
- ss, st Azalea mollis Mrs. Oliver Slocock, rich orange-yellow
- st Azalea mollis Lemonora, apricot with rose center (66)
- st Azalea mollis Robespierre, orange-red (66)
- st Azalea mollis Louise Hunnewell x japonica aurea
- ss, st Azalea schlippenbachii (Royal Azalea)
- ss, st Pieris floribunda (Mountain Andromeda) (66)
- ss, st Azalea EXBURY HYBRIDS, mixed colors

RHODODENDRON HYBRIDS

- st Britannia x fortunei
- st Discolor Hybrids
- ss, st Farquhar's Hybrids, very hardy, pink and red
- st Fortunei, crossed with hardy low variety
- st Fortunei, crossed with hardy tall variety
- ss st Fortunei, hardy variants, possible red hybrids

ITEMS BELOW: Started Seedlings (ss)—\$15.00 per flat, \$8.25 per half flat (*). Transplanted Seedlings (st)—\$6.50 per flat of 52 (12½¢), except \$8.25 per flat of 66 (12½¢) where noted (66).

- s, ss, st Azalea kaempferi, salmon-pink to salmon-orange
- s, ss, st Azalea poukhanensis, early reddish-violet
- s, ss st Leucothoe catesbaei (Drooping Leucothoe)
- s, ss, st Pieris japonica (Japanese Andromeda)
- s, ss, st Rhododendron carolinianum, low, compact, pink

RHODODENDRON HYBRIDS

- s, ss, st Caractacus, crimson, hardy, compact (66)
- s, ss st Catawbiense Album, hardy, white, compact
- s, ss, st Charles Bagley, large rose-red, broad, compact (66)
- s, ss st English Roseum Elegans, excellent rose-pink
- s, ss st Everestianum, very hardy, frilled lavender
- s, ss st General Grant, good red, very hardy
- s, ss st Purpleum Elegans, purple, hardy, compact

ITEMS BELOW: Started Seedlings (ss)—\$17.50 per flat, \$9.50 per half flat (*). Transplanted Seedlings (st)—\$7.80 per flat of 52 (15¢), except \$9.90 per flat of 66 (15¢) where noted (66).

- ss Azalea altaclarensis, orange-yellow
- ss, st Azalea calendulacea, red and orange
- ss Azalea Ghent Hybrids, mixed colors
- ss, st Azalea japonica, yellow (66)
- ss, st Azalea mollis, orange-yellow (66)
- s, ss, st Azalea mollis, mixed colors
- st Azalea mollis Hortulanus Witte, orange-yellow (66)
- s, ss, st Azalea mucronulata, very early, rose-purple
- ss, st Azalea pontica, yellow
- ss, st Azalea vaseyi, Tyrian-rose to rose-pink
- s, st Azalea William III, orange to orange-red

st Rhododendron decorum, white to soft rose

- ss, st Rhododendron racemosum, dwarf early, pink
- ss, st Rhododendron smirnowi, very hardy, rose

RHODODENDRON HYBRIDS

- ss, st America, hardy, spreading, red
- ss, st Atrosanguineum, good growing, red (66)
- ss, st Charles Butler (fortunei), blush-pink, fragrant
- s, ss, st Charles Dickens, very hardy, good red
- ss st Kettledrum, very hardy, compact, good red (66)
- ss Mrs. C. S. Sargent, spreading, pink

(*) SHIPPING INFORMATION: Flats are packed in special strong cartons for safe shipment. Half flats must be ordered in multiples of two.

NOTE: Seedlings of hybrid clones do not present plants of character identical to the parent from which seed was picked and must not be named thereafter. A large enough percentage should, however, be of equal or better character as to make planting both profitable and interesting. Cultivar names and descriptions are used here for genetical interest only.

ROYAL STAR
MAGNOLIA

(Magnolia Stellata Royal Star)

★ New Royal Star has large, pure white, 25 to 30 petal blossoms that literally cover the plant in a galaxy of bloom.

★ New Royal Star blooms from a week to 10 days later than the ordinary stellata thereby reducing the disadvantages of blemished blossoms caused by spring frosts.

★ New Royal Star is a compact, robust plant with rich bright green foliage. It makes a salable plant sooner than ordinary stellata.

★ New Royal Star is offered now for the first time. Be among the first to have this outstanding magnolia. Strong, healthy, 15 to 18 ins., branched plants in attractive green 1-gallon Lerio Nursericans. Order now from the schedule below.

(* Substantial reduction on larger quantities)
SPECIAL LIST OF SPECIMEN PLANTS ON REQUEST.

STOCK FOR CONTAINERS

Practically any item we list can be grown on in containers. If you have had no previous experience, however, we suggest that you start with smaller quantities. There are certain cultural practices not common to growing in the field that you should become familiar with before growing container stock on a large scale.

The popularity of container grown ornamentals is increasing rapidly. Growth of container grown plants often exceeds that of field grown plants. Cost of handling is considerably less than when plants are balled and burlapped and most generally a greater volume of material can be handled in a given period. This is a distinct asset in the hectic period of Spring and Fall sales. Since container grown plants can be moved at any time, selling can be accomplished throughout the year. Those who sell container grown plants report increased customer satisfaction, fewer complaints and fewer replacements.

SUGGESTIONS FOR CONTAINER GROWING

To assist you in initiating or improving your container growing program we list below some conclusions made from growers experiences and research studies.

1. Transplanted liners, especially potted liners, are best for canning. The 1 gallon container is the most popular size. Metal containers are receiving the most attention. Tar paper pots are also extensively used. Both are available through commercial channels.
2. Containers are best set in beds or areas from 4 to 6 feet wide and are placed directly on the soil can against can or separated depending on the size of the material contained.
3. Good medium proves to be 1 part soil, 2 parts peat-moss and 2 parts shredded styrafoam, perlite or fine sharp sand.
4. Drainage holes are necessary in the bottom edge of the can, usually 4 or more. Commercial cans have sufficient drainage in most instances. Salvage food containers must be punched. Salvage cans will generally last only one year but their life may be prolonged by washing and then dipping in a water soluble asphalt emulsion.
5. Hand watering is the best method of moisture application. Daily watering is necessary during hot and dry periods. Overhead irrigation has been successful when carefully applied.
6. Dry fertilizer should be mixed with the medium at the rate of 1 lb. per 4 bushels. 6-10-4 has been successfully used. Frequent fertilization during the growing period is necessary. Liquid feedings are economical and considered the best practice. These should be applied 4 to 6 times a year, at a rate of approximately 1 quart to a 1 gallon container. Dry fertilizers may also be used and watered in. Application recommended is ¼ teaspoon per 1 gallon container. The frequent waterings will leach both nitrogen and potassium and these levels should be watched and corrected when necessary.
7. Frequent light pruning is recommended.
8. The medium need not be sterilized. However it is recommended that this should be accomplished with special emphasis on pre-emergence weed control. Similar treatment of the area where the containers are placed is also recommended.

WINTER PROTECTION

Complete mulch (entire container plunged) is beneficial to almost all materials so far grown. Mulch may also be applied only to the top of the container but complete mulch is better. Lath or other suitable shading is highly beneficial. Some growers are covering completely with polyethylene.

HARDY AZALEA TRANSPLANTS

HEAVY LINERS IN FLATS
50 Plants per flat

HINO-CRIMSON - Hardy crimson-red. \$7.50 per flat, 5 up @ \$7.00, 25 up @ \$6.50
DELAWARE VALLEY WHITE, \$9.00 per flat
GABLE HYBRIDS - varieties below \$9.00 per flat, 5 up @ 8.50, 25 up @ \$8.00
-CAMPFIRE, CAROLINE GABLE, HERBERT, ELIZABETH GABLE, LA LUMIERE, LOUISE GABLE, LORNA, MARYANN.
NANCY - New HinH pink, hardy, \$9.00 per flat
WILHELMINA VUYK (PALESTRINA), Hardy white of the Vuykiana Hybrids, \$8.00 per flat.

DELIVERY SERVICE

When it is economical we will be glad to make deliveries directly to your nursery. Charges will be for costs only and may be figured by using the table below. When actual costs are less than the figured costs the charges will be decreased accordingly. You can save by pooling orders for delivery to one address. When orders are not of sufficient size to make delivery practical we will of course be glad to have the stock expertly packed by our packers for shipment via railway express or parcel post.

PLEASE GIVE COMPLETE DELIVERY DIRECTIONS.
LACK OF THESE MAY DELAY DELIVERY. INCLUDE
PHONE NUMBER AND A SKETCH IF NECESSARY.

Tall & Slender Hardy Yews

EXCELLENT FOR HEDGES, BEAUTIFUL LIVING WALLS
IDEAL FOR SPECIMEN, PLANTER OR FOUNDATION

One of the specimens (robusta) in our Taxus display

- FLUSHING**—has large, sturdy, rich dark green foliage and bright red berries. Maximum width about 18 ins.
Grades below - A, B, C, D
- GRANDIFOLIA**—is a sturdy, compact column with large, long, heavy, dark green foliage. Maximum width about 21 ins.
Grades below - A, B, C, D, F, G,
- PILARIS**—has gracefully curled foliage of medium-green color that is very attractive. Maximum width about 21 ins.
Grades below - A, B, C, F
- PYRAMIDALIS**—is a rich, showy, full-bushed pyramid with medium-green foliage and bright red berries. Maximum width about 24 ins.
Grades below - A, B, C, D, E, F, G,
- ROBUSTA**—forms a dense, compact column and has large sturdy dark green foliage. Maximum width about 21 ins.
Grades below - B, C, D
- SENTINALIS**—is the narrowest—a compact, slim sentinel of green with attractive curled foliage and bright red berries. Maximum width about 15 ins.
Grades below - C, D, E, F, G
- STRICTA**—makes an ideal hedge—dense, compact, medium-green, sturdy with maximum width about 21 ins.
Grades below - D, E, F, G
- VIRIDIS**—has year-round fresh green color and a twist in the foliage that makes it different. A real good plant. Maximum width about 18 ins.
Grades below - C, D, E, F, G

(* Our own past introductions to the trade)

FOR YOUR OWN GARDEN WE WILL SHIP 1 STURDY
LITTLE PLANT OF EACH OF THE ABOVE FOR \$25.

SHREDDED STYROFOAM

We have found shredded styrofoam to be an excellent substance to permit aerification of our propagating and potting media. It neither adds nor detracts chemically, absorbs no water and is extremely light. There are available from our large supply 14 cu. ft. bags at the following prices:
1-4 bags @ \$7.15 25-99 bags @ \$6.25
5-24 bags @ \$6.45 Sorry - no shipping
